**INDOOR TENNIS, PADEL AND PICKLEBALL CENTRE**  
**How will this new build affect me and my membership?**

**I don't want anything different to my current membership and I don't see myself using the new centre. I am also worried you are going to increase my fees to help fund this development.**

Don't worry – there will be no direct impact on your current membership fees other than the usual annual uplift due to inflation. However, you will hopefully see more investment at the current outdoor club due to profits made by the new centre. In addition, you should see better tennis court availability (if applicable) as some coaching sessions and general play will move indoors.

**I am a racket member who might want to occasionally use the new indoor facilities – how do I do that?**

You will have access to book padel and tennis courts on a pay & play basis along with the wider community.

**I am a racket member who wants to use the facility on a regular basis.**

For a nominal additionally monthly fee you will be able to add 'indoor club membership' to your current membership and have access to an earlier booking window and favourable rates for both tennis and padel.

**I am a new member who only wants to have indoor membership.**

There will be a separate membership category for the indoor facility only. This will give you access to an earlier booking window and favourable rates for both tennis and padel. The membership will also give you access as a social member to the outdoor club, however, you will not be able to use the sport facilities unless you are a guest of an outdoor club member.
